My Joy is the exploration of the Tarot with others, that we, together, may discover our Paths of Light. It is my hope that as we All come more into our own Light that others will be attracted by its loving pull of possibility. In this way we all become agents of change. We can then take the responsibility of creating a new paradigm of Love, Peace and Abundance for All.

News: What an amazing day we are having in the US with a solar eclipse and a new moon, although I have learned that solar eclipses only happen at a new moon, duh! and every 18 months! So we have the opportunity of a new beginning on a cosmic scale every 18 months. (-: What I love about this experience is that so many of us are reminded again that we are living on a small sphere in the Dark circling a fiery sphere of Light which gives us Life. Perhaps also a realization that if the earth did not spin into Light and Dark on a daily basis that this vital, vibrant planet would not exist. So this is a time to reflect on your own spinning as Light and Dark, your own ebb and flow of experience.

The next turn on the Celtic Wheel is Beltane, a celebration of the fecundity of the Earth which we share in human form. We will celebrate on my back deck, **Friday, May 3.** Contact me if you want to be on the invite list.

Until then, delight in the returning Light!

Message for the New Moon of April 2024

What does it mean to go into your Depths to find your Light? What is the purpose of Darkness? The Shadow? What would you be without the Dark to contrast the Light? Would you even exist? Without the polarity the dichotomy, the difference, the opposition would anything ever happen?

Think of your metaphors: that in a piece of coal is the potential of the diamond; the alchemical process of turning lead into gold. Metaphors of your Cosmic consciousness of Light being birthed from the pressure of the Dark. Dark and Light are partners of Creation.

As you become more conscious you become aware of your own darkness. Many of you would push this darkness away but where does the darkness go? Nowhere. For its purpose is to birth your Light. You are pure Light, pure energy and you chose to come into the darkness of form, to experience contrast and duality. You came into darkness that you might appreciate the Whole. You came into the form of human that you might experience constriction to refine your Light. To experience extreme pressure that turns something deep within into a diamond. You are here at this time on earth to experience extreme darkness. You, as Light, are here to strengthen your Light into brilliance that you might shine more brightly for All on Earth and the Universe itself.

Celebrate your Darkness. Invite it forth and converse with what you might call your Shadow. Understand its purpose. Understand its Goodness. Understand that seeming problems come from looking at it all from the Dark.

Bring forth your Light. Bring forth the lantern of your heart. Attend to the Dark. For within the Dark, you discover your true treasure.

New Moon Reading Questions

I ask what We, as a collective of souls, can learn from the message I received

Reading for the Tribe for the New Moon of April 2024

Card One

A card for our Darkness at this time.

Card Two

A card for our Light at this time.

Card Three

How to accept and appreciate our duality of Light and Dark?

Card Four

What might our wholeness of Light and Dark look like at this time?

Card One

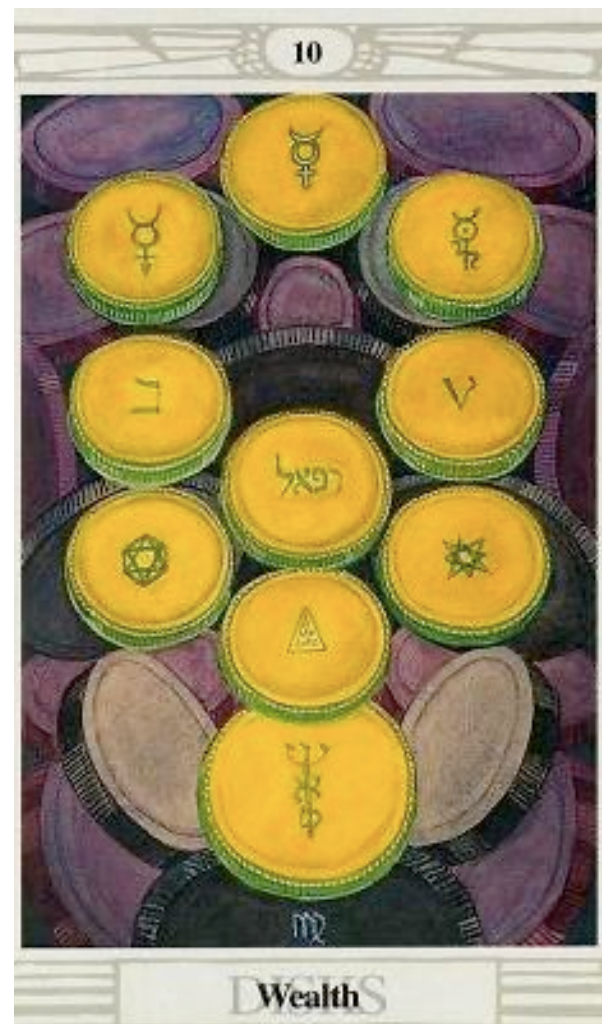

A card for our Darkness at this time.

All Threes in the Tarot are about gestation in the Cosmic Womb so the **Three of Pentacles/Disks** is where all possibilities for manifestation gestate. It is very dark in this womb and it is up to us to nurture what we hope to birth on the physical plane. The world may seem very dark at this time but if we can think of this Dark as the pregnancy of a new humanity, there is so much Hope. So the question is: What are we nurturing in our womb of becoming? A world of Love or a world of hate and distrust? A world of compassion and respect for diversity or a world of judgement, of right and wrong? How will you nurture this pregnancy of Light in the Dark?

Card Two

A card for our Light at this time.

There is a lot of Light in this **Ten of Disks/Pentacles**. But it is an old light of gold coins and the power of wealth. The **Ten of Disks** is the last card in the Tarot deck. This is as far as our manifestation can go into the darkness of physicality before it must return to Light. This is a death card, so appropriate for these end times. The old paradigm must die so that the new paradigm, gestating in the **Three of Disks**, can give birth. Our Light is emerging in the dying of the old structures and institutions.

Card Three

How to accept and appreciate our duality of Light and Dark?

Oh, I was hoping this card would show up! The **Thoth Five of Disks/Pentacles** shows us an eclipse! The ongoing eclipse of human reality. The dark circles are the Wheels of Time showing how our linear thinking eclipses our Infinite Light. The pentagram is up side down showing our focus only on the physical. The Light, our vibrational, wondrous Being is there. You can see it through the cracks. But we are lost in the dark seeing only lack and difficulty. How to accept and appreciate our duality? Become conscious of what we are, Light within the Dark. Be aware of our Darkness and notice when it overwhelms the Light. Know that we are blessed to have the experience of living on earth as both.

Card Four

What might our wholeness of Light and Dark look like at this time?

The **Ten of Cups** is about receiving ourselves completely, embracing our Light and Dark with Love. Love, which spans the spectrum of despair and bliss. Love which when denied spawns Hate. When we can appreciate our Light and our Dark we learn to love ourselves: When we open to loving ourselves, we then have the capacity to love others. When we love the other with no judgment, we radiate and love a whole new world into being.

Just know that you are all pregnant with your Light, **Three of Disks/Pentacles**, for the Dark of the old paradigm is ending, **Ten of Disks/Pentacles**. It probably feels like the Dark is winning, that existence is out of balance, **Five of Disks/Pentacles**, but if we can all choose our Light, choose Love, everything opens up to be blessed with Light, **Ten of Cups**.

**Now it's your turn.
Do this month's reading for yourself to see
where you, as an individual, can contribute
to the whole.**

As always I welcome your
ideas, questions and comments.
